

# Ideation Phase

## Brainstorm & Idea Prioritize Template

Date	19 September 2022
Team ID	PNT2022TMID14806
Project Name	University Admit Eligibility Predictor
Maximum Marks	4 Marks

### Step-1: Team Gathering, Collaboration and Select the Problem Statement

Template

## Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare  
🕒 1 hour to collaborate  
👤 2-8 people recommended

### Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

A

Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B

Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

C

Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we [your problem statement]?

### Key rules of brainstorming

To run a smooth and productive session

 Stay in topic.

 Encourage wild ideas.

 Defer judgment.

 Listen to others.

 Go for volume.

 If possible, be visual.

## Step-2: Brainstorm, Idea Listing and Grouping

2

### Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

#### Jagadeesh

Learn ML and AI

Selecting algorithm with maximum accurate results

Make use of similar existing projects for reference

Use secured and easy implementing backend

#### Gowtham

Watch Videos to Learn Web development

Design Good UI

Use most understandable Data Visuals

Require details of user for validation

#### Ohmprakash

Learn ML and AI

Use most used Data Visualization

Test the model with available datasets

Use cost efficient and low network requirement tools

#### Saravanan

Watch videos to learn flask

Fast Operatable

Taking University Rank for consideration

Use fast and efficient cloud for storage

3

### Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

#### Requirements :

Learn ML  
and AI

Design  
Good UI

Watch  
videos to  
learn flask

Test the  
model with  
available  
datasets

#### Application Type :

Data Visuals

#### Additional feature :

Use cost  
efficient and  
low network  
requirement  
tools

Taking  
University  
Rank for  
consideration

## Step-3: Idea Prioritization

4

## Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes
